

Keeper Security

Password vault information.

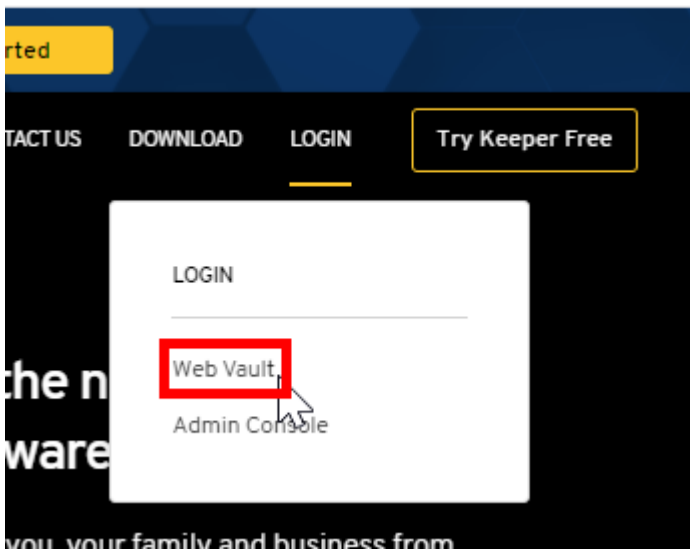

- [Keeper Security Logon](#)

Keeper Security Logon

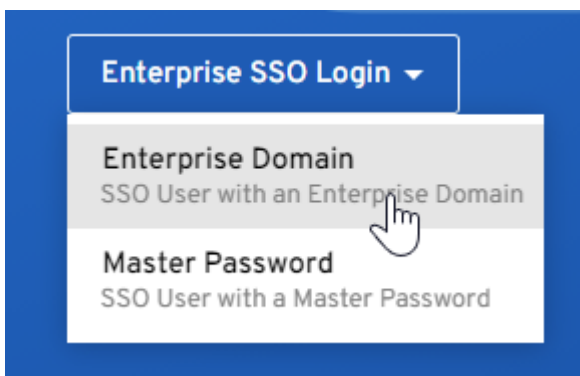

The Keeper Security logon process will use the Enterprise SSO option for work accounts.

Personal accounts on the family plan will use a "Master Password", which is not tied to any work account.

Navigate to the Keeper Security homepage (<https://keepersecurity.com>) and choose the web vault.

Choose "Enterprise SSO Login" and select "Enterprise Domain"

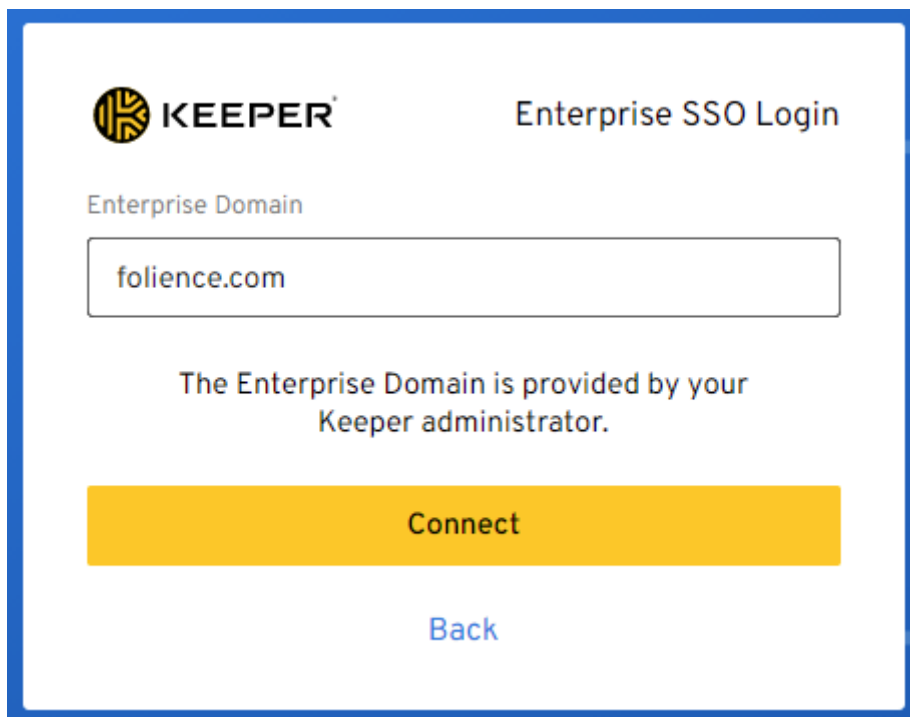

Personal accounts on the family plan will use email address and Master Password.

Choose the correct domain:

Cimarron Trailers = cimarrontrailers.com

Life Line = lifelineambulance.com

All Others = folience.com

The image shows the Keeper Enterprise SSO Login interface. At the top left is the Keeper logo, a yellow circle with a black geometric pattern, followed by the word "KEEPER" in bold black capital letters. To the right of the logo is the text "Enterprise SSO Login". Below this, the text "Enterprise Domain" is displayed. Underneath is a text input field containing "folience.com". Below the input field, a message states: "The Enterprise Domain is provided by your Keeper administrator." At the bottom, there is a large yellow button labeled "Connect" and a blue link labeled "Back".
