

# Keeper Security Logon

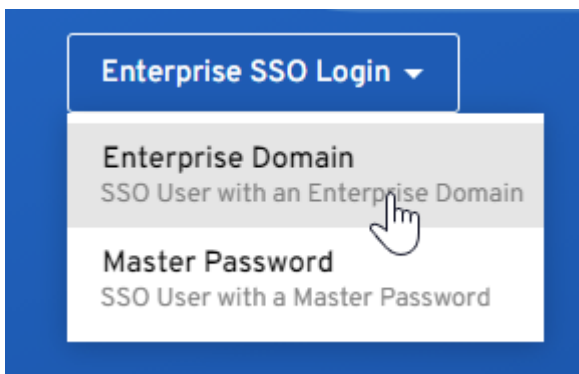

The Keeper Security logon process will use the Enterprise SSO option for work accounts.

Personal accounts on the family plan will use a "Master Password", which is not tied to any work account.

Navigate to the Keeper Security homepage (<https://keepersecurity.com>) and choose the web vault.

Choose "Enterprise SSO Login" and select "Enterprise Domain"

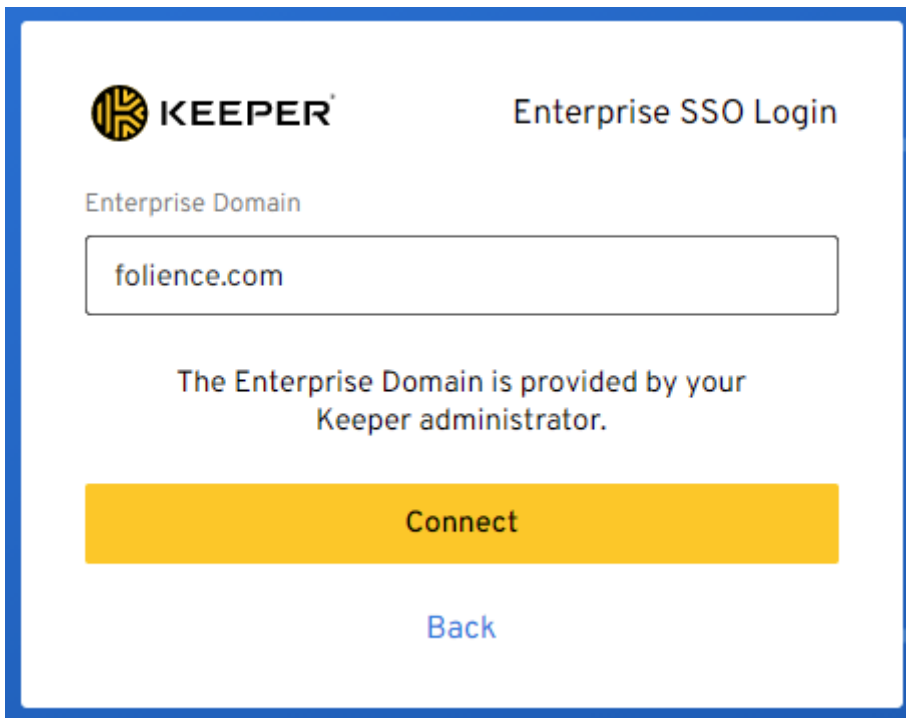

Personal accounts on the family plan will use email address and Master Password.

Choose the correct domain:

Cimarron Trailers = cimarrontrailers.com

Life Line = lifelineambulance.com

All Others = folience.com

The image shows the Keeper Enterprise SSO Login interface. At the top left is the Keeper logo, and at the top right is the text "Enterprise SSO Login". Below the logo is the label "Enterprise Domain". A text input field contains "folience.com". Below the input field is the text "The Enterprise Domain is provided by your Keeper administrator." At the bottom are two buttons: a yellow "Connect" button and a blue "Back" link.
