

Keeper Security Logon

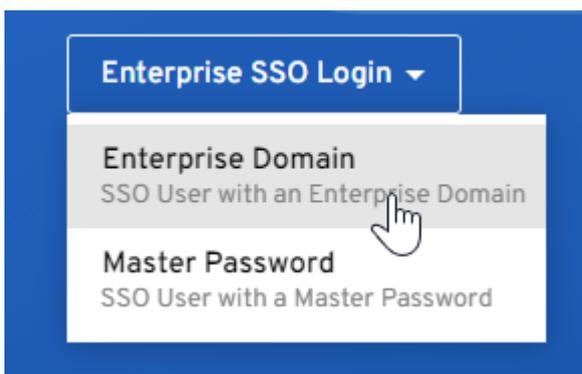

The Keeper Security logon process will use the Enterprise SSO option for work accounts.

Personal accounts on the family plan will use a "Master Password", which is not tied to any work account.

Navigate to the Keeper Security homepage (<https://keepersecurity.com>) and choose the web vault.

Choose "Enterprise SSO Login" and select "Enterprise Domain"

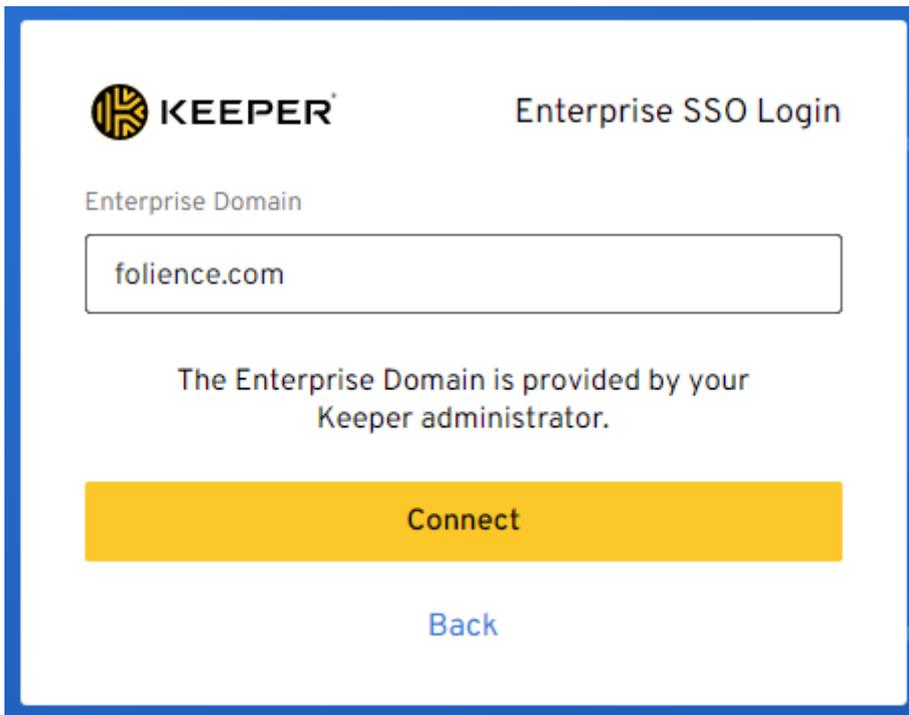

Personal accounts on the family plan will use email address and Master Password.

Choose the correct domain:

Cimarron Trailers = cimarrontrailers.com

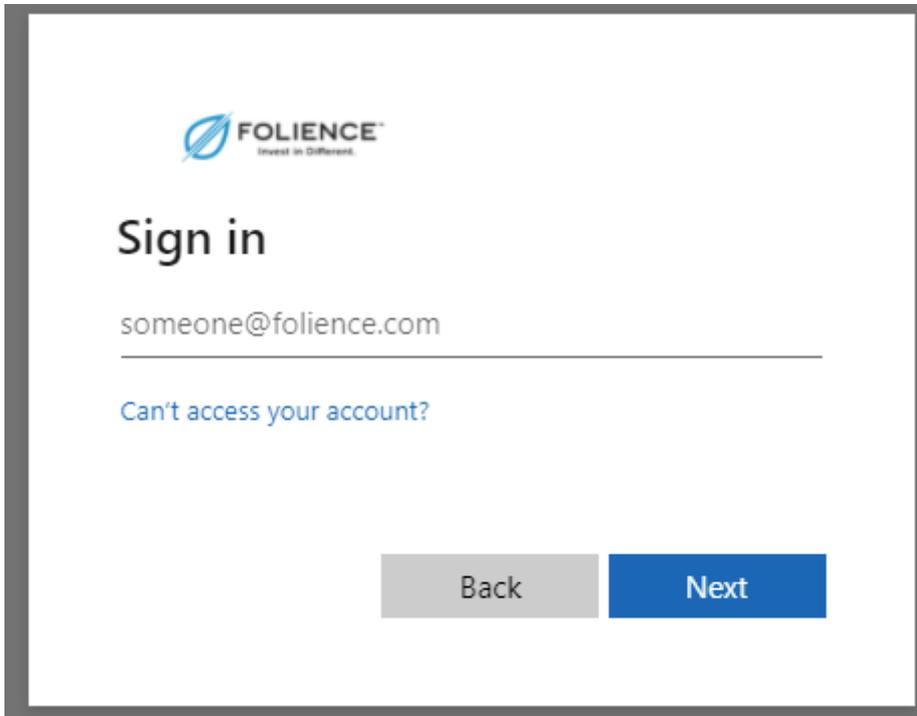

Life Line = lifelineambulance.com

All Others = folience.com

The image shows a screenshot of the Keeper Enterprise SSO Login page. At the top left is the Keeper logo, a yellow circle with a black geometric pattern, followed by the word "KEEPER" in bold black letters. To the right of the logo is the text "Enterprise SSO Login". Below this is the label "Enterprise Domain" above a text input field containing "folience.com". Underneath the input field is the text "The Enterprise Domain is provided by your Keeper administrator." At the bottom of the page are two buttons: a large yellow button labeled "Connect" and a smaller blue button labeled "Back".

Login using Office365 credentials (work email + work password).

The image shows a screenshot of the Folience Sign in page. At the top left is the Folience logo, a blue leaf-like shape, followed by the word "FOLIENCE" in bold black letters and the tagline "Invest in Different." below it. The main heading is "Sign in" in a large, bold, black font. Below the heading is a text input field containing "someone@folience.com". Underneath the input field is a blue link that says "Can't access your account?". At the bottom of the page are two buttons: a grey button labeled "Back" and a blue button labeled "Next".

If you get a warning about not being assigned a license or not in the correct group, please email your IT support team to inquire if you are in the correct security groups.
