# Extend Display

## About

This page will describe how to change display settings to extend display to multiple monitors. If you have two monitors and the same image appears on both, they need to be adjusted.

## Display Settings

Right-Click on the desktop and choose "Display Settings"

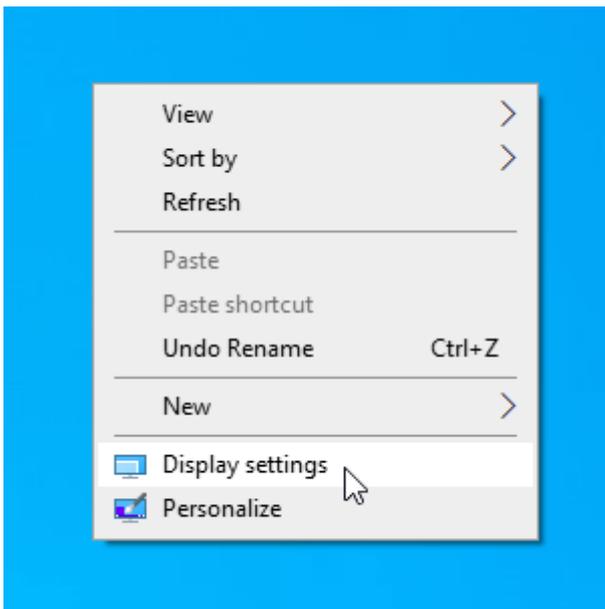

## Multiple Displays

Under the "Multiple displays" sub-section, make sure "Extend desktop to this display" or "Extend these displays"
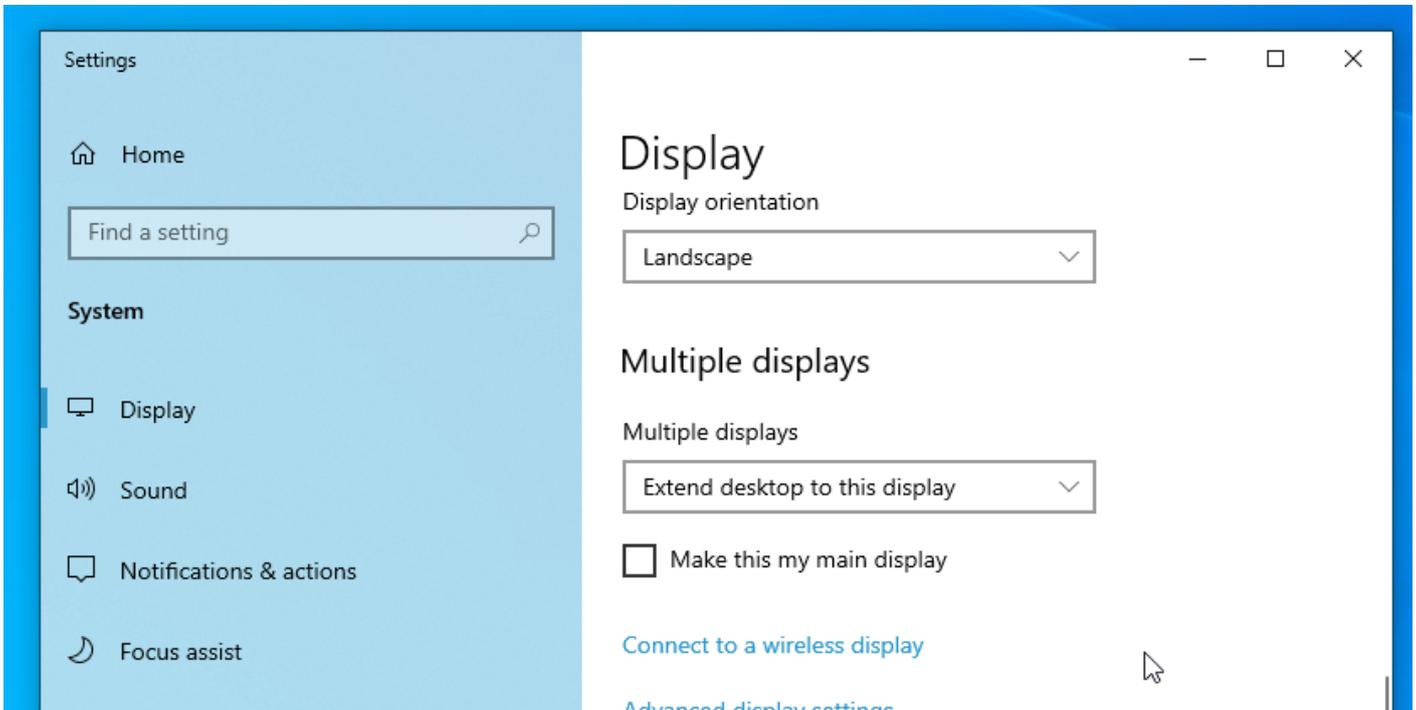

# Keep Changes

If successful, it will ask you if you want to keep the changes or revert settings. If everything looks correct, choose "Keep Changes"
